

## GRANTS

In order to pursue a variety of planning projects in the City, and further the goals and policies of the General Plan, starting in 2010, the Planning and Community Development Department sought out a number of grants. The grant programs are sponsored by state and regional agencies.

A SCAG Compass Blueprint grant was submitted in late 2010 for a pedestrian evaluation of one of the busiest intersections in the City, Thousand Oaks Boulevard and Kanan Road. In late 2011, the Department was informed that the grant application was approved. At the end of 2011, the City and SCAG selected a consultant to evaluate the intersection and design a pedestrian plan, and prepared a scope of work. The contract is currently being prepared.

In early 2011, the Department submitted a Caltrans Community Planning grant application to prepare a Citywide Bikeways Master Plan. However, the grant was not awarded by the state. The Department will continue to seek other grants to fund this project.

Starting in late 2011, the Department began preparing an application for the Sustainable Communities Planning Grant from the California Department of Conservation, which is overseen by the State Sustainable Communities Council. This grant is to prepare a specific plan for Subarea 5 of the General Plan to create an economically viable and environmentally sustainable mixed-use urban infill development. The application is due in early 2012.

## SPECIAL PROJECTS

Occasionally, the Planning and Community Development Department is requested to take on a special project, involving, for example, policy development, by the City Council or City Manager's Office. In 2011, the Department was asked to develop a procedure for allowing temporary banners in commercial areas, as described below.

### *Temporary Retail Banner Extension*

Since 2008, the City Council has allowed the temporary display of retail banners to assist in stimulating local business. In August of 2011, at the request of the Land Use/Economic Development Committee of the City Council, the Planning and Community Development Department presented to the City Council a request to extend the program for an additional nine months, expiring on May 24, 2012.

The City Council approved the extension, which allows for retail, restaurant, and hotel businesses to display one temporary banner on private property, not to exceed thirty square feet in size, up to four times during the nine-month period, at the discretion of the business owner. The banner may be displayed for a maximum of up to ten days per event, with no limit on consecutive days/events, and is subject to a sign permit.

## ART IN PUBLIC PLACES

In 1989, in order to increase the aesthetic enhancement of the community, the City Council adopted a City Art in Public Places program. This program provides a collection of nationally recognized, permanent artwork within all new applicable building projects of at least 30,000 square feet in size, or any residential subdivision of at least 40 units. The program is designed to present the community with a wide-range of artwork styles, themes, and media, all of the highest quality, and to be enjoyed by the public.

The newly created City Cultural Arts Council is now responsible for reviewing and approving public art proposals. In 2011, the Cultural Arts Council approved one new public art piece for an approved, 103,000 square foot light industrial complex to be constructed at 28721 Canwood Street. The 35-foot tall, brushed aluminum art piece is designed by artist Jon Krawczyk. The project construction date has yet to be determined.
