

Form 806 Agency Report of Public Official Appointments

The Fair Political Practices Commission (FPPC) requires each agency to report additional compensation that officials receive when an officer appoints themselves, or is appointed by their legislative body, to serve in positions on committees, boards or commissions of a public agency, special district, or joint powers agency or authority.

Members of the Agoura Hills City Council do not currently serve on any outside committees, boards or commissions that provide additional compensation.

Note: *If a Councilmember is appointed to serve on a committee that provides additional compensation, a Form 806, identifying all of the current paid appointments to other governmental agencies will be posted to the City's website.*
