

REPORT TO CITY COUNCIL

DATE: JANUARY 9, 2013

TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL

FROM: GREG RAMIREZ, CITY MANAGER

BY: AMIR HAMIDZADEH, BUILDING OFFICIAL

SUBJECT: APPROVE RESOLUTION NO. 13-1695; ADOPTING THE UPDATED DEVELOPER FEE DETAILED FIRE STATION PLAN FOR THE COUNTY OF LOS ANGELES DEVELOPER FEE PROGRAM FOR THE BENEFIT OF THE CONSOLIDATED FIRE PROTECTION DISTRICT OF LOS ANGELES COUNTY

The request before the Council is to approve the attached Resolution No. 13-1695 adopting the Los Angeles County Consolidated Fire Protection District Developer Fee Program, which indicates no change to the current fee in place. This Developer Fee has been in place since 1993 and is updated annually, at the request of the Fire District.

On November 27, 2012, the Board of Supervisors of the County of Los Angeles adopted the attached Developer Fee Detailed Fire Station Plan. This plan describes the acquisition, construction, installation, equipping, and administration of fire stations to be funded with developer fee revenue. Areas benefiting from this plan include the Malibu/Santa Monica Mountains Region, Santa Clarita Valley and Antelope Valley. Included within the project list is Fire Station No. 89 on Canwood Street that was opened in June of 2006.

The projects listed in the Fire Station Plan are funded with development impact fees that are collected upon building permit issuance for construction of residential and commercial projects. The current fee is \$0.9223 per square foot of new development. The County Board of Supervisors has recommended and adopted this fee to remain the same, with no increase for this calendar year.

Pursuant to the Developer Fee Agreement between the Fire District and the City in 1993, the City must annually adopt the updated Fire Station Plan and Development Fee, subsequent to the Board's adoption each year.

RECOMMENDATION

Staff recommends the City Council approve the attached Resolution No. 13-1695 adopting the County of Los Angeles Consolidated Fire Protection District Developer Fee Program Update that reflects the Fire Station Plan and Developer Fee rate will remain the same, with no increase in fees.

DEVELOPER FEE DETAILED FIRE STATION PLAN

FOR THE

**COUNTY OF LOS ANGELES DEVELOPER FEE PROGRAM
FOR THE BENEFIT OF THE
CONSOLIDATED FIRE PROTECTION DISTRICT
OF LOS ANGELES COUNTY**

OCTOBER 2012

DEVELOPER FEE DETAILED FIRE STATION PLAN

PREFACE

This Developer Fee Detailed Fire Station Plan (Plan) reflects the Consolidated Fire Protection District's (District) fire service requirements as of October 2012 based upon growth projections and contacts with cities and developers who have shared their development plans with the District.

The Plan identifies 19 additional fire stations, one temporary fire station, a replacement station, and the necessary capital equipment that will be required in the Areas of Benefit as well as the anticipated costs and time frames provided that development occurs as expected. The anticipated costs identified in the Plan will be funded by Developer Fee revenues or funds which the District has advanced from other sources. These advances will be repaid to the District when sufficient Developer Fee revenue is generated.

Terms Used in Plan	Explanation
Fire Station/Location	In most cases a site has not yet been acquired; the locations are therefore approximate.
Anticipated Capital Project Costs	<ul style="list-style-type: none"> • Where actual costs are not yet available, the anticipated capital projects costs are based upon the District's current cost experienced for construction, land and equipment. • Apparatus cost includes the full cost of the apparatus as well as outfitting and equipment costs. • No District overhead costs nor an inflation factor have been applied; all figures are based on current costs. • Developer Fee credit may be granted for the conveyance of a site, apparatus, or construction of a fire station to help offset the impact of development on the District.
Project Cost Estimate	Based on average costs for fire stations recently completed and stations under development; includes plans, specifications, consultant services, plan check, permit and inspection fees, construction, project management, furnishings, and equipment.
Amount Budgeted	The amount budgeted could be from Developer Fee funds collected or advanced from District general revenues or certificates of participation. All advances made and/or interest incurred by the District to finance station development are to be repaid when Developer Fee revenues are sufficient. If no amount is budgeted, the development of the fire station may be delayed until Developer Fee revenues are sufficient to fund the site acquisition and/or construction of the fire station.
Equipment and Staffing	This plan reflects the proposed staffing and equipment to be implemented when each station and the development served by each station are built out in the respective areas of benefit. In many instances, a transitional staffing configuration will be utilized until build out occurs.
Fiscal Year	The Fiscal Year period begins July 1 and ends June 30.
Initiating Priority Year	Refers to the fiscal year that the land acquisition or construction of the fire station is anticipated to begin.
Target Occupancy	Target occupancy is approximately one to two years from the actual start of construction.
