

REPORT TO CITY COUNCIL

DATE: MAY 8, 2013

TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL

FROM: GREG RAMIREZ, CITY MANAGER

BY: CHRIS DODD, PUBLIC WORKS PROJECT MANAGER

SUBJECT: AUTHORIZATION TO PURCHASE REPLACEMENT VEHICLE FOR THE CITY DIAL-A-RIDE FLEET

In March 2008, the City Council approved the purchase of five Dial-a-Ride vans for its Dial-a-Fleet. The vans were purchased with MTA Proposition "A" funding, whereby MTA permits cities to replace existing transit operator fleets. The City elected to participate in securing its vehicles, as ownership of its own fleet would provide for better avenues for rates when entering into agreements with our transportation operator and future transportation providers. Prior to 2008, the transportation operator owned and provided the vehicles.

The fleet is currently five years old, and mileage on many of the vehicles exceeds 90,000 miles. The City's transportation operator (First Transit) is recommending initiating the process of the fleet replacement to insure fleet reliability and control maintenance cost. The vehicle that is scheduled for replacement is an ADA accessible van and currently has 121,248 miles recorded on the odometer. For Fiscal Year 2012-13, staff budgeted \$50,000 in Proposition "A" Funding for the purchase of one ADA-accessible van, and also received approval from MTA for this purchase. Locally, there are two possible vendors for purchase of this specialized vehicle, Creative Bus Sales, located in Chino, California and Mobility Works, located in Van Nuys.

Staff is recommending the City utilize Mobility Works. While both companies specialize in these types of public transportation handicap accessible vans, and the City can utilize their close proximity to Agoura Hills in the event the van would require some type of repair and provide responsive service to our transportation provider, First Transit, with questions or assistance with the new van. The City has purchased vehicles from Mobility Works in the past for Dial-a-Ride services and had a favorable experience. Mobility Works has provided a cost of \$41,934.43 for the vehicle (quote attached), and has advised the City would be eligible for a \$2,000 rebate from the manufacturer (Dodge). The rate is comparable with the cost researched with Creative Bus Sales.

Additionally, for the FY2013-14, staff has budgeted \$50,000 for the replacement of two additional non-accessible vehicles that will also require replacement.

RECOMMENDATION

Staff respectfully recommends the City Council Authorize the Purchase of a Replacement Vehicle from Mobility Works for the City Dial-a-Ride Fleet.

COMMERCIAL ENTERVAN®

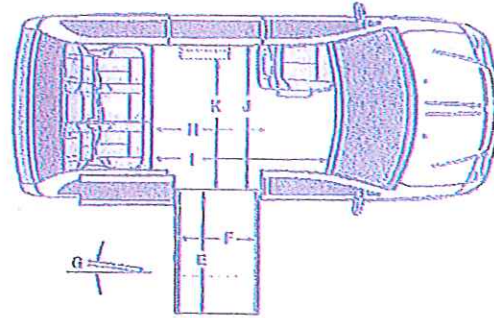

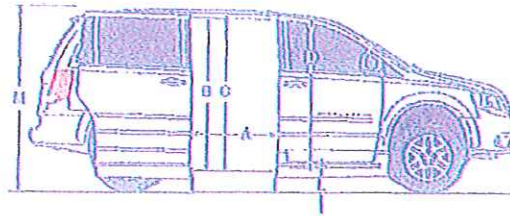

The Braun Commercial EnterVan® is the culmination of nearly forty years experience in building personal mobility products. Style, performance, convenience and safety have been aesthetically blended to achieve a new level of refinement in a wheelchair-accessible minivan.

The most striking feature is its handsomely finished automotive look. Both the passenger side and the driver side sliding doors have been lowered to match the low floor level with no sill or other obstructions to step over. This standard feature also allows for a better wheelchair turning radius, making it easier to maneuver while inside the vehicle. The Commercial EnterVan® comes standard with a removable front driver and passenger seat, and a wheelchair securement position in the front passenger area.

Safety has always been a top priority at Braun. The Commercial EnterVan® has been crash tested and certified to meet or exceed all applicable requirements of the Federal Motor Vehicle Safety Standards (FMVSS) and is backed by our three-year limited warranty.

FEATURES

- Dodge Grand Caravan Chassis
- ADA, FMVSS and CMVSS Compliant
- Meets/exceeds Altoona test requirements
- CARB approved
- 7-passenger vehicle (with optional 2-passenger Fold-A-Way Seat)
- Lowered floor from firewall to rear axle
- Manual swing ramp providing 30" usable width
- Multiple wheelchair securement locations
- One belt system for wheelchair securement
- Manual driver and passenger side sliding door providing 56-1/4" vertical opening (ADA compliant), passenger door provides 31-1/2" in width
- Step-and-Roll front seats
- Roll and Tumble third row seating
- Vinyl flooring with 3/8" marine grade plywood underlayment
- 61" floor-to-ceiling at center of van*
- Front passenger floor tracks for wheelchair securement, with 60" floor-to-ceiling height
- Stylized lower body panels with integrated steps
- ADA-compliant interlock
- ADA-compliant ramp and door entrance lighting
- Priority seat decal
- Wheelchair securement location decals
- 3-passenger bench seat at rear with folding footrest
- Auxiliary wiring harnesses include fused circuits
- Emergency rear hatch release
- Easy maintenance interior trim package
- 20 gallon OEM fuel tank
