ART in public places

On February 11, 1998, the Agoura Hills City Council adopted a resolution establishing procedures and guidelines for an Art in Public Places

program. The City Council recognized, at the time, that aesthetic enhancement and enrichment of the community would come by including fine art throughout the city. The goal of the Arts in Public Places program is to provide a collection of nationally recognized permanent art work that includes a wide range of quality art work styles, themes, and media.
