SCOPE OF WORK FY 2005-2006

| TASK | Cost for 2005-2006 |
|---|--------------------|
| Annual Report Preparation. Task includes review and input of all franchised and permitted hauler disposal and diversion reports, calculation of diversion tonnage for all implemented programs, updating of all programs as identified by the City SRRE and HHWE, input of all required data into the CIWMB computer database for preparation of the annual report. Once the report is completed a final report is prepared for the City and as required by CIWMB staff. This is the backup for the the disposal and diversion tonnages that are reflected in the electronic annual report. | \$ 6,000.00 |
| Disposal Tracking. Task includes the actual tracking of all disposal attributed to the City at all of the landfills. This task first includes review of the current haulers' disposal reports to calculate actual City tonnage. These tonnage figures are compared to the tonnages allocated to the City by our haulers. Any differences need to be addressed. Secondly, the landfill reports are reviewed to verify who is hauling from the City and if the tonnages are actually from the City (reports are over 100 pages in length). If discrepancies occur, staff coordinates with the hauler to properly allocate tonnages to the proper jurisdiction. Once this is completed a Reporting Year Disposal Modification Form is prepared for submittal to the CIWMB. This transfer of disposal tonnage has increased tonnages from the default diversion of 20% up to a mid 40% diversion rate. Public Noticing and advertising. SWS prepares newspaper advertisement and City newsletter advertisements to support the City programs. Typically ads are done for the Bulky item program and household hazardous waste disposal program. | \$ 5,000.00 |
| HHW Form 303. As mandated by the State. The City is required to prepare CIWMB Form 303. This form is due the 1st Monday in October. It presents a summary of all HHW collected through the City programs. Task includes the preparation of a summary table from our 5-City program. This table accounts for materials brought by the City's residents to any of our round-ups. It is required to calculate the pounds of all material, number of participants, total costs of the program and cost per participant. Household Hazardous Waste Coordination. This task includes but is not limited to the following: (1) HHW Form 303. As mandated by the State. The City is required to prepare CIWMB Form 303. This form is due the 1st Monday in October. It presents a summary of all HHW collected through the City programs. Task includes the preparation of a summary table from our 5-City program. This table accounts for materials brought by the City's residents to any of our round-ups. It is required to calculate the pounds of all material, number of participants, total costs of the program and cost per participant. (2) Coordination with the community for participation in the local round-ups and the Los Angeles County round-ups. This task includes taking daily telephone calls from businesses and residents requesting information on proper disposal and handling of HHW, distribution of flyers and development of ads or text for the city newsletter and for the newspapers and maintaining a data base in order to accurately track HH waste for reporting purposes. (3) Response to illegal dumping. Task includes assisting city staff when illegal materials are de Annual Christmas Tree Program. Every year all cities must sign up with Los Angeles County and the County Sanitation District to participate in the Christmas tree recycling program. This task includes that coordination and also resident coordination, as the County refers questions to us as we facilitate your Christmas tree program. | \$ 5,000.00 |
| Annual Solid Waste Hauler Permits. Commercial haulers are required to process an annual hauling permit. In addition, each hauler is required to submit monthly and annual disposal/diversion reports. These reports are entered into a database that calculates all material disposed and recycled by the commercial sector. This task includes the issuance of renewal letters every December and process all permits as received. This task is being expanded as all roll-off and rent a bin providers are going to need permitting. | \$ 6,000.00 |
| Response to illegal dumping. On call assistance is provided to City Hall staff in order to properly remove and dispose of illegally dumped hazardous waste. This service includes coordination with the local haulers to verify if the material can be hauled off by them or if an alternative solution is required. | |
| Program Development. Tasks include but are not limited to the following: Providing staff assistance with all aspects of the AB 939 program, meeting and coordinating with haulers, CIWMB Coordination, on-going grant reviews and preparation as required. Public Noticing and advertising. SWS prepares newspaper advertisement and City newsletter advertisements to support the City programs. Typically ads are done for the Bulky item program and household hazardous waste disposal program. Annual Christmas Tree Program. Every year all cities must sign up with Los Angeles County and the County Sanitation District to participate in the Christmas tree recycling program. This task includes that coordination and also resident coordination, as the County refers questions to us as we facilitate your Christmas tree program. | \$ 6,000.00 |
| Residential Recycling-ClWMB Program 2000-RC-CRB: Maintain existing recycling levels . (1) Prepare and Distribute new flyers with magnet for a citywide mailing (7000) pieces. (2) Update City Wedsite. (3) Assist solid waste haulers with educational program. (4) Continue quarterly review and update through city newsletters. (5) Institute a proactive eductional program regarding the proper disposal of Household Hazardous Waste | \$ 6,660.00 |
| Commercial Recycling-CIWMB Program 2030-RC-OSP: Expand the commercial recycling program. (1) Coordinate with the haulers to insure active participation, prepare a commercial recycling survey, assist local businesses, follow up every 6 months to insure participation by the haulers. | \$ 5,000.00 |
| Green Waste-CIWMB Program 3020-CM-COG: Insure participation in the commercial green waste porgram, verify the use of the Alternative Daily Cover (ADC) program at the local landfill: (1) meet with haulers to clarify program requirements. (2) contact local gardeners to direct them to use the ADC program (3) begin local compost seminars (4)Participate in Springfest, develop and order products for give- aways. | \$ 1,500.00 |

SCOPE OF WORK FY 2005-2006

| TASK | Cost for 2005-2006 |
|--|--------------------|
| C&D Program-CIWMB Program 4060-SP-CAP: Construction & demolition debris. (1) City will prepare standard C&D conditions to be used on all new development projects. Task shall include project reviews as submitted to City. (2) City will begin the process of issuing solid waste permits to the Roll-off and Rent- A-Bin providers. (3) Review of C&D reports for new projects. | \$ 6,000.00 |
| | |
| Subtotals for AB 939 Surcharge charges: | \$ 47,160.00 |
