Subject: Liberty Canyon exit.

Hello,

Good afternoon and thank you for taking emails from community members. As a Liberty Canyon resident I wanted to point out that when driving eastbound on the 101 and exiting at Liberty Canyon there are shrubs or plants when looking left. It makes it very difficult to see oncoming traffic at an intersection where there have been several accidents in the past years. While I understand that this is somewhat new vegetation that was planted it impairs drivers vision while turning onto Liberty Canyon.

Thank you for your time.

Sincerely,

Peter Steinzeig

Subject: School openings

Hi. I would like to know the position of the mayor and other council members on the opening of schools in agoura hills. The mayor of Calabasas has been vocal in his support of opening schools.

Thank you.

Tanya
