

## **REPORT TO CITY COUNCIL**

**DATE: JULY 13, 2005**

**TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL**

**FROM: GREG RAMIREZ, CITY MANAGER**

**BY: KEN BERKMAN, CITY ENGINEER**

**SUBJECT: AUTHORIZATION TO SEEK BIDS FOR FY 2005/2006 STREET RESURFACING PROJECT; NIB 05-04**

---

Staff is requesting authorization to seek bids for the FY 2005/2006 Street Resurfacing Project. The scope of work consists of resurfacing 32 residential streets (over 9 lane-miles) with rubberized asphalt concrete (RAC). A project map and street list is attached. The use of RAC provides our City streets several advantages over conventional asphalt concrete, such as increased resistance to reflective cracking, providing a quieter ride and better striping contrast; all while recycling used tires.

The list of streets to be paved is in accordance with the City's recently updated Pavement Management System (PMS) report. This report provides an orderly listing of all the City's public roads and their condition. Combined with analysis of field and technical data, the report provides the City with a "best bang for our buck" priority listing of streets in need of rehabilitation.

The FY 2005/2006 project budget includes \$800,000 from the General Fund and \$100,000 from the Gas Tax Fund. Staff expects to return to Council in August for the contract award and commence construction in September.

### **RECOMMENDATION**

Staff respectfully recommends City Council approve the Plans and Specifications and authorize staff to seek bids for the FY 2005/2006 Street Resurfacing Project; NIB 05-04.
