Dear All

I am writing to propose that the open garbage cans near children's play areas in all city parks be replaced by lidded wildlife-proof cans so that our wildlife does not associate such areas with free food.

Recently, in July this year, a coyote was killed by wildlife officials in San Francisco because it was charging at children at the S.F. Botanical Garden in Golden Gate Park. It was subsequently discovered that a person in the neighborhood was feeding it meat every week.

There is a bold coyote that hangs around Reyes Adobe Park. I have attached a photo of it feeding on a sandwich in a sandwich bag that I would guess it stole from an open garbage can.

For the safety of our wildlife and our children, it would seem better if food garbage was not as easily accessible as it is now where children play.

Warning signs at the parks about not feeding coyotes wouldn't go amiss either.

Thank you for your consideration of my proposal.

Sincerely
Heather Robinson

Dear Council et al,

For years I have been requesting a mere censure of Mayor Weber for the last time he got caught red handed playing footsies with Don Dusablon and behaving in an unethical manner, but at the time, I guess not enough for this city council.

This time he not only got caught in a sleazy act, but he endangered lives by doing it and demonstrated terrible judgement. Truly what does it take to motivate the Agoura Hills City Council? Would an axe murder get the job done or does this council just intend to tolerate anything and everything short of axe murder regardless of it's impact on our city including willfully spreading disease that do kill real citizens?

Thus far. only one council person has demonstrated ANY integrity that I know of, even verbally, and it should not take this long for the rest of you to do the right thing. Some of the fools who patronized Cronies at the height of the pandemic probably died as a result of this stupidity so what if anything constitutes "enough"? These sickos demonstrated behavior that could not be more irrational and still you refuse to take it seriously. Some councilman have been around a long time but so has Rudy Giuliani and that is a piss poor excuse for going deaf, dumb and blind. Have you no shame?

This is really not OK anymore. Many of us in the community are very unhappy at your state of paralysis and it's not just big mouthed Larry Brown anymore but rather some credible citizens. Rest assured however that big mouthed Larry Brown will be using his big mouth to make a lot more noise until someone gets off the mark.

This council is a damn disgrace if you cannot muster the fortitude to act appropriately even after these jackasses are literally responsible for deaths and hospitalizations. Twiddling your thumbs is not a good look, Weber should be at the very least, censured and Weber's cronies never permitted to do business in this city again.

*Oscar Wilde said "give a man a mask and he will tell you the truth" but Oscar Wilde never met the Agoura Hills City Council or might have just said **** it!*

Larry Brown
