WHAT WE'VE HEARD

RESULTS FROM COMMUNITY SURVEY – BICYCLING IN AGOURA HILLS

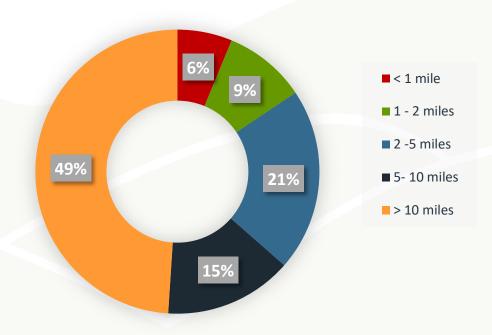

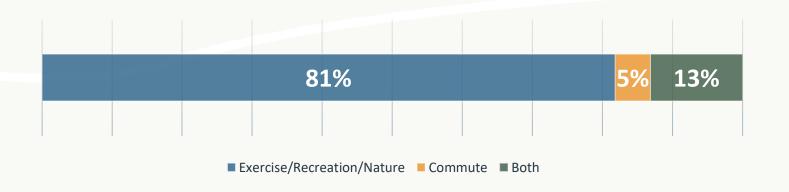

Survey Results

WHY DO PEOPLE BIKE?

- Most people bike for exercise/recreational purposes or to experience nature.
- A much smaller percentage bike to commute, though there is overlap.
- This split is evident when examining average distance per bike trip in Agoura Hills.

Typical Distance per Bike Trip

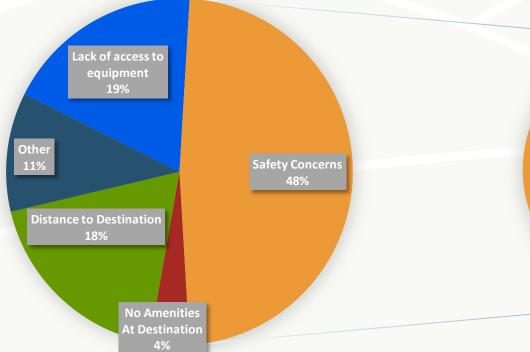

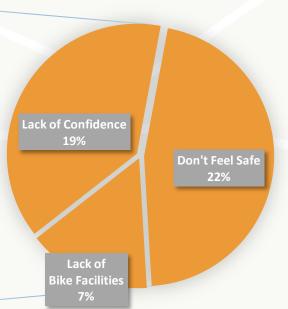

Survey Results

- WHY DON'T PEOPLE BIKE?
 - Distance to Destination Too Great
 - Lack of Access to Equipment
 - Lack of Amenities at Destination

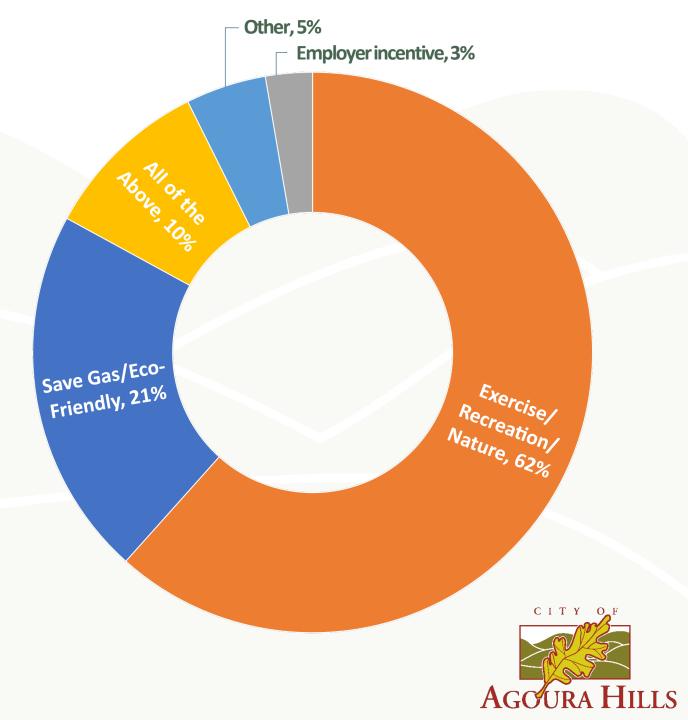

- Combination of Safety Concerns
 - Perceived Lack of Safety
 - Lack of Confidence in Cycling
 - Lack of Dedicated Bicycle Facilities

Survey Results

- WHAT WOULD ENCOURAGE YOU TO BIKE?
 - Opportunities for exercise, recreation, or time spent in nature top the list.
 - The ability to save gas and be more eco-friendly.
 - Employer incentives were much lower on the list.
