Caution! This message was sent from outside your organization.

We support the motion for Everyone Safe Passage. There have been so many “close encounters” with drivers who don’t pay attention to the horses, runners and hikers and dangerous situations have become a daily occurrence. Please don’t let a pedestrian or horse die before you take action. This is long overdue.

Since the Park renovation, the number of cars on Chesebro Road has increased significantly. People come from all over to bike and hike here and many have never seen a horse up close. They have no idea how a horse behaves so a bridle path would make our community safer for everyone.

Sincerely,  
Shel and Lisa Schneider

Hello

I am unable to attend tonight's meeting but want to add my positive vote to the Everyone Safe Passage petition

Thank you

Rhonda Greenstein

Dear Council Members,

The long ago planned safe trail program for Old Aboura has only been completed and extensively used along a portion of Driver Avenue. The motivated new committee of citizens before you tonight is striving to seek further continuance of the original safe trail program we started all those years ago.

Every day now, moms with baby strollers, folks walking their pets and 4-H animals,, and equestrians are dangerously using the streets for this exercise and recreation.

OLD AGOURA HOMEOWNERS urges you to direct the appropriate staff to develop a program to design and implement a fence-protected trail completion project that starts off with the suggestions given by the ESP neighbors speaking before you this evening.

JESS THOMAS, PRESIDENT  
OLD AGOURA HOMEOWNERS
