Hello City Council,

I hear you are discussing the permit and location of the CRV only recycling outfit. We use this center monthly because our kids collect all of our recyclables. It's so convenient to our house in Morrison Ranch. It doesn't seem to be infringing on traffic nor does it seem outsized in that space.

Please do what you can to allow accommodations to a company that helps our community and manages to sustain a business on such low margins. We don't want them to have any incentive to leave Agoura.

Every piece of plastic that has ever been made still exists today- recycling is the only solution we have right now. My teenagers would be outraged if they see another adult organization limit environmental action. It's their world, we're just caretaking for the next few years.

Please renew the permit for CRV Only and prove to the community that we care about our environment.

Thank you,
Suzanne Appel

I strongly support the granting of a conditional use permit to the existing CRV ONLY STORE. This business is extremely well run and efficiently operated. The quick and easy access is a boon to a family's hectic daily schedule management and it fits well with our city's reputation as an environmentally responsible municipality.

Hello,

I understand that the consideration of a conditional use permit is being considered for the CRV Only Store located at 5727 Kanan Road. I will not be able to attend the public meeting but wanted to voice my support for the continued operation of this very vital business to our community. This location has worked exceedingly well and provided a much needed resource to residents. One can plainly see that many people use this service and location and demand will only increase as the State of California now collects CRV on juice, wine and liquor containers as of January 2024. I strongly encourage you to grant the conditional use permit for this establishment.

Thank you.
Bettina Leeney

I am of support of this recycling center.

Always a positive experience.

Polite gentleman.

Convenient location for me, as I use this center bi-weekly.

Thank you.

Regards

Steve Guerrero
