

## Construction Advisory

### Wallis Annenberg Wildlife Crossing on Highway 101

May 31-June 7, 2024

This is a Caltrans update on project construction and impacts such as lane and ramp closures. To subscribe or unsubscribe to these ongoing updates, please see below.

#### **CONSTRUCTION ACTIVITIES**

Crews are working on and around the girders which span the freeway.

Crews are installing rebar (reinforcing rods) to construct the bridge deck above the girders, and other work.

- **Day work is scheduled Monday through Friday.**
- **Night work may be done on some nights, Monday through Friday.**
- **The schedule is subject to change due to weather or operational reasons.**

#### **CLOSURES AND DETOURS**

**Highway 101 is open to traffic in both directions at night, every night, until further notice.**

**Caltrans has finished the recent series of nightly “full-freeway” (complete) closures.** In the future, full-freeway closures may be scheduled on dates to be announced.

When lanes or ramps must be closed at night, the following schedule applies:

- The Southbound 101 Liberty Canyon Off-Ramp and the Northbound 101 Liberty Canyon On-Ramp may be closed after 7 p.m. and will be open by 6 a.m. every morning except in unusual circumstances or on weekends.
- Starting at 7 p.m., one lane on Northbound 101 may be closed. Starting at 8 p.m., one lane on Southbound 101 may be closed.
- Starting at 10 p.m., two lanes may be closed in either direction. A third lane may be closed southbound after 11 p.m., and northbound after 12 a.m. (midnight). At least one lane in each direction will be open for traffic.
- By 5 a.m., all freeway lanes (excluding exit/entrance lane) will be open.

**Daytime ramp closures may occur intermittently Mondays through Fridays:**

- The Southbound 101 Liberty Canyon Off-Ramp and the Northbound 101 Liberty Canyon On-Ramp may be closed intermittently between 9 a.m. and 3 p.m. Monday through Friday.

**The schedule is subject to change due to weather or operational reasons.**

Before you begin your travel, you can check current closures at [QuickMap.dot.ca.gov](http://QuickMap.dot.ca.gov) (or use the free Quickmap app).
