I am writing in support of Cronies. They deserve to have their liquor license. Cronies is an asset to this community and provide support for our children and schools. Please approve

Thank you

Dear City Of Agoura Hills:

My family has been a resident of this community for more than three decades. I have been involved with education, as well as volunteer on a number of city committees, including the Business Task Force which was formed to promote business here in Agoura. My husband, Evan, and I have raised our children here and continue to live a lovely life in the community. I, myself, had a small business here in Agoura serving our residents for many years. I am writing regarding the extension of liquor service at Cronies restaurant.

Cronies has been part of our community for many years and has contributed food to

Community Service Day when I served on that city committee. To this point, it has served as a pleasant place to dine and even watch sporting events.

However, I have grave concern over extending full liquor service at Cronies. The location of Cronies gives it easy access to the 101 corridor, which will bring more than just locals in to drink and dine. The location of Cronies has a large thoroughfare behind it where people in cars can go without being seen from the street or the parking lot. The safety and policing of this area concerns me a great deal because of the possibility of intoxicated customers causing trouble as well as noise issues. Additionally, Cronies backs up to a residential community and I believe the same issues can, again, present safety challenges for homeowners.

Ours is mostly a "bedroom community" of families and generally small businesses. li

do not feel that expanding a liquor license would be smart, safe, and in the best interest of Agoura Hills. My family has always been supportive of local businesses, and we like to see them thrive, which is why I was a part of the Business Task Force in the first place. However, I will state once again I think, extending a full liquor service license to Cronies is not in the interest of a community and is generally a terrible idea.

Thank you very much.

Karen Kent
