

CONDITIONS OF APPROVAL (Case No. 05-SPR-027)

STANDARD CONDITIONS

1. This decision, or any aspect of this decision, can be appealed to the City Council within fifteen (15) days from the date of Planning Commission action, subject to filing the appropriate forms and related fees.
2. This action shall not be effective for any purpose until the applicant has agreed in writing that the applicant is aware of, and accepts all Conditions of these Permits with the Department of Planning and Community Development.
3. Except as modified herein, the approval of this action is limited to and requires complete conformance to the approved labeled exhibits: Site Plan, Elevation Plans, Floor Plans, and Roof Plan.
4. All exterior materials used in this project shall be in conformance with the materials samples submitted as a part of this application.
5. It is hereby declared to be the intent that if any provision of this Permit is held or declared to be invalid, the Permit shall be void and the privileges granted hereunder shall lapse.
6. It is further declared and made a Condition of this action that if any Condition herein is violated, the Permit shall be suspended and the privileges granted hereunder shall lapse; provided that the applicant has been given written notice to cease such violation and has failed to do so for a period of thirty (30) days.
7. All requirements of the Zoning Ordinance and of the specific zoning designation of the subject property must be complied with unless set forth in the Permit or on the approved Site Plan.
8. No occupancy shall be granted for any building until all Conditions of Approval have been complied with as determined by the Director of Planning and Community Development.
9. A minimum of two (2) enclosed parking spaces shall be provided on the subject property, in conformance with the City Parking Ordinance. A minimum interior clear space of 20 feet by 20 feet must be maintained within the garage.
10. The applicant shall comply with all applicable Public Health Statutes, Ordinances, and Regulations related to the disposal of sewage.
11. All structures shall conform to the requirements of the Division of Building and Safety of the City of Agoura Hills.
12. The Forester and Fire Warden shall be consulted to ascertain the required fire flows and fire hydrants to accommodate the proposed development.

13. Unless this permit is used within two (2) years from the date of City approval, Case No. 05-SPR-027 will expire. A written request for a one (1) year extension may be considered prior to the expiration date.
14. The applicant shall comply with the school impact fee requirements of the Las Virgenes Unified School District. The current fee is \$2.63 per gross square foot for residential construction.
15. No roof-mounted equipment, other than attic ventilation systems and solar panels, as allowed by the Municipal Code, shall be permitted.
16. Prior to the issuance of a Building Permit, the applicant shall pay the Fire District Development Fee, at the rate in effect at the time of Building Permit issuance. The current rate is \$ 0.3877 per square foot of new floor area.
17. The City Building Code requires all new addition to be protected by a residential fire sprinkler system. Plans for the required system shall be approved by the Fire Department prior to the issuance of Building Permits for the residence.

SOLID WASTE MANAGEMENT STANDARD CONDITIONS

18. To ensure that solid waste generated by the project is diverted from the landfill and reduced, reused, or recycled, the applicant shall submit a “Waste Reduction & Recycling Plan” to the City for review and approval. The plan shall provide for at least 50% of the waste generated on the project to be diverted from the landfill. Plans shall include the entire project area, even if tenants are pursuing or will pursue independent programs. The plan shall be submitted to and approved by the Department of Planning and Community Development prior to issuance of a building permit. The plan shall include the following information: material type to be recycled, reused, salvaged, or disposed; estimated quantities to be processed, management method used, and destination of material including the hauler name and facility location. The City’s Waste Reduction & Recycling Plan form or a similar format shall be used.
19. The project shall comply with the plan and provide for the collection, recycling, and/or reuse of materials (i.e. concrete, wood, metal, cardboard, green waste, etc.) and document results during demolition and/or construction of the proposed project. After completion of demolition and/or construction, the applicant shall complete a Waste Reduction & Recycling Summary Report and provide legible copies of weight tickets, receipts, invoices or letters of verification for materials sent to disposal or reuse/recycling facilities. For other discarded or salvaged materials, the applicant shall provide documentation, on the disposal facility’s letterhead, identifying where the materials were taken, type of materials, and tons or cubic yards disposed, recycled or reused and the project generating the discarded materials. The Waste Reduction & Recycling Summary Report shall be submitted and approved prior to issuance of a certificate of occupancy, or final inspection if issuance of a certificate of occupancy is not applicable.

20. The applicant shall arrange for materials collection during construction, demolition, and occupancy with a City permitted hauling company, or shall arrange for self-hauling to an authorized facility.

SPECIAL CONDITIONS

21. The applicant shall provide a permeable or semi-permeable driveway surface for the driveway leading to the existing garage along the southern property line, subject to approval by the Director of Planning and Community Development.
22. No construction activity shall occur between the hours of 7:00 p.m. and 7:00 a.m., Monday through Saturday. Construction activity is also prohibited on Sundays and holidays, per Municipal Code Section 4100.
23. Upon submittal of plans for a building permit, the project architect or licensed engineer shall submit a letter to the City Engineer which identifies the amount of proposed grading on the property. The City Engineer shall determine, upon receipt of the letter, if a grading permit is required for the proposed construction.
