

REPORT TO CITY COUNCIL

DATE: AUGUST 11, 2010

TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL

FROM: GREG RAMIREZ, CITY MANAGER 

BY: MIKE KAMINO, DIRECTOR OF PLANNING AND COMMUNITY DEVELOPMENT 

SUBJECT: CONDUCT A PUBLIC HEARING AND ADOPT RESOLUTION NO. 10-1597, FINDING THE CITY TO BE IN CONFORMANCE WITH THE 2010 CONGESTION MANAGEMENT PROGRAM (CMP) AND ADOPTING THE CONGESTION MANAGEMENT PROGRAM LOCAL DEVELOPMENT REPORT

The purpose of this item is for the City Council to conduct a public hearing and adopt a Resolution of Conformance with the Congestion Management Program and Local Development Report (LDR), as requested by the Los Angeles County Metropolitan Transportation Authority (Metro). The State-mandated Congestion Management Program (CMP) became effective in 1990 with the approval of Proposition 111. Metro is responsible for preparing and monitoring local growth on the regional transportation system and the CMP serves as a tool to link local land use decisions with their impacts on regional transportation and air quality and develop a partnership among transportation decision makers on devising appropriate transportation solutions which include all modes of travel for cities in Los Angeles County.

The Los Angeles County CMP addresses minimum levels of service for highway and roadway systems, performance measures for multimodal systems, transportation demand management strategies, impacts of land use decisions on the regional transportation system, capital improvement programs and a deficiency plan development. Cities can remain in compliance with the CMP by maintaining the use of a transportation demand management ordinance, continuing to implement the land use analysis program through the CEQA process, and reporting new development activity by submitting the Local Development Report (LDR). If a city is not in conformance with the program requirements, eligibility for Gas Tax funds may be revoked until conformance is reached at the reporting period for subsequent years.

The LDR must include the total number of new single-family and multi-family dwelling units and gross square-footage of new commercial development for which building permits were issued, as well as demolition or conversion of use. This reporting period is from June 1, 2009 to May 31, 2010. During the reporting period, the Building and Safety Department issued permits for the construction of twenty-four (24) single-family residences in the Riopharm's tract south of Agoura Road, near the east end of the City, and one (1) custom single-family residence in the Indian Hills residential area. With regard to commercial development, permits were issued for

the construction of 10,303 square feet of free-standing eating establishments, and 26,179 square feet of retail space for the Shops at Oak Creek on Canwood Street, and 71,844 square feet of office space for Agoura Hills Corporate Point on Agoura Road (Scheu Development Company). A copy of the LDR is attached to this report.

As required, the necessary traffic counts were conducted by the City's Public Works Department. The City continues implementing the Transportation Demand Management Ordinance and CEQA requirements by conducting land use analyses.

RECOMMENDATION

Staff recommends the City Council conduct a public hearing and adopt a motion to approve Resolution No. 10-1597, finding the City to be in conformance with the 2010 Congestion Management Program, and adopt the Congestion Management Program Local Development Report.
